Our Mission & Vision

Chairman
K.C. Khandelwal

Knowledge City School runs under the Management of National Technical Education Society, founded in 2012 as a co- educational school. The school aims to ensure that its students achieve their highest academic and personal potential. It also aims to give them a firm foundation based upon an understanding of Indian culture, society and ideas. However, the school aims to use that base to build more globally aware citizens prepared for the rigours of the 21st century. We ensure that the rock-solid foundation is built for students, which helps in developing better skills and values. We will make them stand in good stead no matter what career they choose

Along with the requisite academic and related skills, we try and instill in our students empathy for those less fortunate and concern for the environment around them

We create opportunities, not just for young people to learn, but also for them to experience the fulfillment that comes from sharing this learning with others.

We believe that success has no milestones

GENIUS ARE NOT BORN, THEY EMERGE

Welcome

WE ARE NOT AN ORDINARY SCHOOL

We believe in overall development of the child

Our School provides comprehensive education for holistic development of individual personality with a humane touch and global outlook. We appreciate that each learner's mind is unique and need to be nurtured with care.

We ensure strong overall morale, social, emotional and physical development by converting children from fledgling toddler into confident and enthusiastic citizen.

Our approach ensures that children enjoy themselves without compromising on learning.

Paving the way in equipping young people the confidence and resourcefulness that prepares them to grow, thrive and find their success in a fast-changing world.

Academic

At KCS, we believe in providing education which is rooted in values, aligned to well-defined learning outcomes, truly global as well as culturally-relevant and personalized to the needs of every child. Committed to the highest standards of academic excellence, KCS students are creative, self-directed, life-long learners with the wisdom and compassion to make a positive difference to global society.

Every child can learn.

Just not the same day or the same way.

INDIVIDUAL ATTENTION

Some Learners need more personalized one-to-one support from the teacher to fill prior knowledge gaps/ misconception.

Teachers are connected with students closely to spot talent among the kids and give them their due credit. At KCS, we give suitable encouragement and attention that can go a long way in allowing the children to shine. The max no. of students in a class is adequate to ensure personalized attention.

Our aim is to support the individual growth and skill of every child. We also provide extra classes on regular basis and enroll them for various competitions based on the activities that interest them.

PRACTICAL LEARNING

WE DON'T TEACH LOGICS,

WE MAKE THEM APPLY LOGICS.

Practical learning is a task in which students observe and do things by themselves. We help students to have hands-on experience in learning activities. At KCS, we have a procedure to do practical and conceptual activities every week starting from 1st grade. This procedure makes our students very confident and competent.

SMART CLASS

Smart classes are modern methods that provide quality education to the students for better learning outcomes with the help of technology.

Visualization of concepts makes the learning easy and permanent. Here, we have audio visual room where students regularly visualize the theory concepts and understands the real life scenarios.

PREPARATION FOR COMPETITIVE EXAMS

With career counselling and planning, we help each student in XI & XII to prepare for competitive exams. We design our curriculum in such manner that students are able to crack competitive exams. We add reasoning, aptitude & short tricks to solve the questions starting from Grade 8th.

Juniors

Our Early Years Programme is designed to meet the needs of young learners from age 2 and above. In a safe and caring environment, our dedicated educators ensure that our youngest champs become happy and confident learners who succeed by gradually entering the realms of letters and numbers. The Curriculum is designed for preschool and kindergarten students focusing on Play Based Learning and Cognitive Development.

KEY FEATURES

- Safe and homely environment
- Female staff

- Expressive art and design
- Music class
- Story Sessions
- Field trips
- Assemblies and events
- Competitions & celebrations
- Games & sports activities

Mrs. Pratibha Yadav *(Superintendent , Archaeology and Museum Department)*

KCS is the perfect place for educating children. My daughter who is in Kindergarten enjoys the fruit of immersion into the concepts equivalent to co-curricular activities. She loves coming to the School. Thanks to the irreplaceable teachers as well as the Management. Kudos to the team KCS!"

Digital Learning

NATIONAL AWARD FOR MOST TECHNICALLY ADVANCED SCHOOL

We, at KCS, harness the power of the digital revolution to ensure quality education is provided as a public good and a human right. We marshal the strengths of digital technology to advance our national and international aspirations for education and lifelong learning.

As a pioneer in bringing digital education to the classrooms in Alwar, Knowledge City School did bring about a radical change in the traditional ways of teaching with its exemplary innovations in the digital space. KCS takes pride in having built a legacy of introducing latest technology based solutions to our curriculum implementation. The quality of education and increasing learning outcomes remain the offshoot of amalgamation of never before features, allowing our school integrate, nourish, create and enhance a 360 degree relationship with student at the center of the learning experience.

We are teaching following :

Computer Coding | Robotics | Artificial Intelligence | NLP | Data Science

Sports

We believe that physical education does not only help to enhance overall health and motor skills but also to help and sharpen student's learning ability. Respect, sportsmanship and fair-play are the foundation of our physical education programme. At KCS, these skills will be inculcated through sports.

Students learn more positive spirits from sports activities than from libraries. Through participation in sports activities, students learn teamwork, sportsmanship, winning and losing, the rewards of hard work, self-discipline, self-confidence, and develop skills to handle competitive situations. These are the qualities students need to become responsible adults and productive citizens.

We have following sports facilities :

OUTDOOR GAMES

Swimming (Separate Pool For Kids) | Basketball | Badminton | Kabaddi
Skating | Cricket | Football | Lawn Tennis | Hockey | Volleyball

INDOOR GAMES

Table Tennis | Chess | Carom Board | Ludo | Board games.

Athletics, Taekwondo, Martial Arts and Gymnastics are also available.

Art & Culture

Under The Umbrella Of Cultural Activities, Kcs Constantly Strives To Promote Creative Thinking And Artistic Expressions Amongst Our Young Champs! The Students Are Bequeathed With The Opportunity To Showcase Their Skills.

DANCE & MUSIC

Our dance studio is fully equipped. It is spacious enough to allow our staff and students to choreograph work for stage performances and competitions. Music is also regarded to be an important part of the curriculum, for the role that it plays in understanding different cultures. We have the music studio that cater to both, choral and instrumental music.

THEATRE

Through theatre/street-plays students are given opportunity to create their own dramas and attend plays presented by others also bringing about social awareness through street-plays. Through this medium of learning, students are transported to worlds past, present, and future in "virtual reality."

FINE ARTS

Art education is an important component of childhood development. A wide range of experience is provided to our students through drawing, painting, sculpture and craftwork. Art education develops creativity and problem solving skills, improves judgement and shows children that there are multiple perspectives. It teaches students to think through and within the material.

PHOTOGRAPHY

The main objective is to introduce the art of photography to enhance the aesthetics of a child and new technologies in the field of photography and filmmaking. The school has a photography club where students learn the basics of photography, starting with the fundamentals of composition and more advanced editing techniques.

Raj Kumar Sain *(Parents of Hridyansh Naroliya, 4th)*

"It was very important for us to choose a school that could provide the right balance of academics Sports and extracurricular activities. Knowledge city is a school where our kid's mind could developed without fear. KCS provides a perfect balance between education and extracurricular activities.!"

Infrastructure

GREEN CAMPUS

KCS upholds the strategy that Greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, purchase of environment friendly supplies and effective recycling programme.

CAFETERIA

Food is an important part of feeling comfortable. We are proud to serve healthy, wholesome, nutritious, well-balanced meals.

LABORATORY

A comprehensive study is incomplete without a proper appreciation of the scientific principles involved. Children are allowed to conduct experiments in the subjects of Biological Science, Physical Sciences, and Mathematics. This fosters an inquisitive spirit and a scientific temper among the young children. The laboratories are well equipped with demonstrable working models and materials required for conducting individual as well as group experiments / projects.

We have 6 labs @ KCS

Computer Lab, Physics Lab, Chemistry Lab, Bio Lab, Maths Lab & Composite Lab

LIBRARY

A school library is within school where students and staff have access to a variety of resources. KCS provides a quiet area for students to study, and encourage students to read. The staff, knowing what books a student enjoys, can help them choose books that are similar to their interests.

MINI AUDITORIUM

Theatre in education is one of the innovative methodologies used to encourage effective learning in children. Educative movies, documentary films and power point presentations are some of our learning tools for kids. These are also very entertaining to watch and help in longer memory retention boosting effective learning patterns amongst children.

RAIN DANCE

Rain Dance facility is available on the premises of KCS, Where the students dance to the tune of various song, splash and play with the water, enjoy and jump with excitement. The purpose of this is to introduce a fun filled activity that gives them a break from normal routine.

Chitra Arora (*Mother of Lishika Arora, 9th Grade*)

"Knowledge city school is certainly the best school in Alwar. They always find an innovative way to teach the students. The campus is green and very spacious. This is a school having unlimited potential and I would recommend this school to everyone.!"
